

# Certificate

Jacek Jeziorny  
has successfully attended the

***KNX/EIB Product Training  
in Schalksmühle***

from

**13th to 15th of October, 2008**

The training course provided the participant with the following knowledge about the JUNG product data base:

- to determine the devices on the basis of the required functions
- to address the devices with the required software applications and to optimize the parameters during adjustment
- to link the devices according to the requirements

In addition, the participant is able to handle and program the software for the new actuators, Flat Design push-buttons, FD Room Controller Display and the Colour Touch Panel.

**ALBRECHT JUNG GMBH & CO.KG**
